

Pre-prepare before the lesson.

## Recipe

For playdough to make Spinnaker Tower and the coastline

### PLAY DOUGH

1 cup flour  
1/2 cup salt  
2 tsp. cream of tartar  
Splash of cooking oil  
1 cup water  
Food colouring

### METHOD

Mix all ingredients in medium sauce pan. Cook over medium heat, stir constantly, until lumps form and surface begins to look dry. Cool, then knead adding more flour as necessary. Add a few drops of food colouring: knead food colouring into dough.

Give the children enough play dough, so that they can create the following:

- Spinnaker Tower.
- The coastline.
- The sea.
- Visitors (viewed from above).
- Sun bathers.
- Shoppers.
- Boats.
- Ships

Cover the classroom tables in clingfilm to create the surface (and the sea) for the children to build their coastline.
